

INDUSTRY WORKSHOPS

Conrad Abu Dhabi Etihad Towers, Abu Dhabi, United Arab Emirates

Saturday, November 23, 2024

Start Time	End Time	Event	Room
11:45	12:30	Industry Workshop: SNIBE	Mezzoon Ballroom 4
11:45	12:30	<p>Industry Workshop: Beckman Coulter <i>Monocyte Distribution Width (MDW) – new cellular biomarker for sepsis: review of principles and clinical evidence.</i></p> <p>This session will address the critical challenges in diagnosing sepsis, including current definitions and the complexity of detecting the condition early. We'll explore the role of sepsis biomarkers that are currently available for routine clinical use.</p> <p>A key focus will be on the measurement of Monocyte Distribution Width (MDW) and its practical applications. We will discuss the role of monocytes in sepsis, principles of MDW measurements and its proven diagnostic performance in the Emergency Department (ED). We will also highlight usefulness of MDW in managing COVID-19 patients and will discuss recent research on MDW.</p>	Mezzoon Ballroom 3

Sunday, November 24, 2024
